When more than 30 minutes is lost prior to the start of the second innings one over is lost (per side) for each whole 8 minutes lost. Once the first innings is completed one over is lost for each whole 4 minutes lost.

6.12.4 Early Completion of First Innings

Where the first innings is completed ahead of the scheduled time allotted to that innings, then any unused time must be added onto the 30 minutes of "make up" time as described in 6.12.3 before losing overs if an interruption happens after the end of that first innings.

- (b) The object shall always be to rearrange the number of overs so that both teams have the opportunity of batting for the same number of overs. (Minimum 20 overs each team), subject to the provisions of clause 6.13.3 and 6.13.4. The calculation of the number of overs to be bowled shall be based on an average rate of 15 overs per hour (or one over every 4 minutes) in the total time available for play.

- (c) The team batting second shall not bat for a greater number of overs than the first team unless the latter has been all out in less than the agreed number of overs.
- (d) Fractions are to be ignored in all calculations re number of overs.

6.13.3 Delay or Interruption to the Innings of the Team Batting First

- (a) If the number of overs of the team batting first is reduced, a fixed time will be specified for the commencement of the interval, and the close of play for the match, by applying a rate of 15 overs per hour or one over every four (4) minutes. This calculation must not cause the match to finish earlier than the original time for cessation of play. If required, the original time shall be extended to allow for one extra over per team.
- (b) If the team fielding first fails to bowl the required number of overs by the scheduled time for cessation of the first session, play shall continue until the required number of overs has been bowled or the innings is completed.

6.13.4 Delay or Interruption to the Innings of the Team Batting Second

- (a) When playing time has been lost and, as a result, it is not possible for the team batting second to have the opportunity of receiving its allocated, or revised allocation of overs in the playing time available, the number of overs shall be reduced at a rate of one (1) over per four (4) minutes in respect of the lost playing time. Should this result in a fraction of an over the fraction shall be ignored.
- (b) In addition, should the innings of the team batting first have been completed prior to the scheduled, or re-scheduled time for the commencement of the interval, then any calculation relating to the revision of overs shall not be effective until an amount of time equivalent to that by which the second innings started early has elapsed.
- (c) To constitute a match, a minimum of 20 overs have to be bowled to the team batting second subject to a result not being achieved earlier.
- (d) The team batting second shall not bat for a greater number of overs than the first team unless the latter completed its innings in less than its allocated overs.
- (e) A fixed time will be specified for the close of play by applying a rate of one (1) over per four (4) minutes. The timing and duration of all relative delays, extensions in playing hours and interruptions in play, will be taken into consideration in specifying this time.
- (f) If the team fielding second fails to bowl the revised overs by the scheduled or rescheduled close of play, the hours of play shall be extended until the overs have been bowled or a result achieved.

6.13.5 The Toss

The captains shall toss for the choice of innings, on the field of play and in the presence of one or both umpires, 30 minutes before the scheduled start, or minimum 15 minutes before any rescheduled later time for the match to start. Tie on first innings	3
Draw or no result	0
Loss on first innings	0
<i>Bye (Chappelow Cup only)</i>	<i>Max*</i>
Forfeit	-6
Forfeit Win	Max*

Max*: Refer to clause 6.16.18 (d)

- (b) The result of a match may be a tie on first innings regardless of the number of wickets lost by the team batting second.
- (c)
 - (i) In order for the team batting first to gain one bonus point, it must achieve victory with a run-rate one and two thirds times that of the opposition.
 - (ii) In order for the team batting second to gain one bonus point, the victory must be achieved by the end of the 24th (or in a reduced overs match, it must bat for no more than 60% of its maximum number of overs).
 - (iv) Where matches are shortened and targets revised through the run rate method, bonus run-rates and bonus defensive targets are derived as a function of the revised target score and maximum overs.

6.16.2 Match Result

- (a) A result can be achieved only if both teams have had the opportunity of batting for at least 20 overs, subject to the provisions of clause 6.13, unless one team has been all out in less than 20 overs or unless the team batting second scores enough runs to win in less than 20 overs. A match shall be declared a “draw” if both teams have not had the opportunity to bat for a minimum 20 overs because:
 - (i) The innings of the team batting first could not commence by 3.30pm daylight saving time
 - (ii) The innings of the team batting second could not commence by 5.10pm daylight saving time or,
 - (iii) The innings of the team batting second would be reduced to less than 20 overs, as a result of an interruption to play after its commencement

- (b) In any match in which both teams have had the opportunity to bat for the same number of overs the team scoring the higher number of runs is the winner.
- (c) In any match in which both teams have had the opportunity to bat for a minimum of 20 overs, but have not had the opportunity to bat for the same number of overs, the result shall be determined by the run rate method. The following guidelines are applicable to a run rate determined result –
 - (i) A team's run rate is calculated by dividing its total score by its total number of overs received.
 - (ii) For the purposes of run rate calculations, each fair delivery bowled counts as one-sixth of an over.
 - (iii) Where a team is dismissed before it has received its maximum number of overs, it is deemed to have received that maximum number of overs when calculating its run rate.
 - (iv) Where the team batting second is allotted a revised and reduced target score with a reduced number of overs compared to the team batting first had, and that team batting second passes that revised and reduced score inside its allotted reduced number of overs then the match is at an end despite there being overs remaining – For Example - Team A batting first scores 6/160 off 40 overs. Team B batting second has a rain delay and on resumption has their overs reduced from 40 to 20. The revised target score is therefore 81. As soon as 81 is scored the match is over and no further play is required even though there are overs not yet bowled.

If the score is equal on run rate, the match is a Tie.

6.16.5 Premiership Positions

- (a) Positions on the competition table shall be determined based on the points gained.

 - (iii) If any interruption in play results in an over not being completed, then that part of the over bowled after the break shall constitute one over for the purposes of calculating the bowler's spell and daily limits.
